# Brief freelance : version courte

Oct 10, 2026 · @Marco

Build ONE mobile-first page in ClickFunnels that copies the reference page we send you (screenshots and link). Same layout, same fonts, same sizes, same spacing, same behaviour. We change only two things: the colour (gold instead of orange) and the texts below. Texts in quotes are final and in French. If a text is missing or needs translating, ask us or copy it from the reference page, but ask us first.

## The page, top to bottom

1. **Logo (text only).** "L'ACADÉMIE DES" in black and "SORCIERS" in gold, styled like the reference logo.
2. **Title.** "Deviens impossible à ignorer", same font and size as the reference title, placed just above the video. Title only, no subtitle, as on the reference page on mobile.
3. **Video.** Starts by itself, muted, with a tap to turn the sound on, in the same frame style as the reference. Use a placeholder video for now. We will replace it.
4. **Button.** "Je dépose ma candidature", same style as the reference button, with the arrow. It scrolls down to the questionnaire.
5. **Questionnaire.** Above it, a short heading: "Dépose ta candidature pour un appel", and under it, in smaller text on one line: "5 questions, 5 minutes maximum". It must be clear that this is an application for a call. Same behaviour as the reference, described below.
6. **Case studies.** Title: "Nous les avons fait décoller sur les réseaux sociaux, au service de leur entreprise". Three cards only, same style as the reference cards: name, video, a result banner, then check-mark lines.

Nothing else. No footer, no extra sections, no navigation.

| Card | Name | Result banner | Check-mark lines |
|---|---|---|---|
| 1 | Anna | 3 millions de vues | Plus de 20 000 € de chiffre d'affaires / 2 personnes employées / Plus de 25 000 abonnés |
| 2 | Axel | 140 000 vues sur sa toute première vidéo | 1 000 abonnés qualifiés directement, prêts à convertir |
| 3 | Ronald | 120 000 vues | Sur ses 3 premières vidéos |

Under the cards, in small text: "Résultats individuels, non garantis." We provide the three videos. For the social-proof cards you have creative freedom: name below the video, results under it. Anna is the most important and has the most content, so give her the most space. Each text must be easy for us to edit later.

## The questionnaire

This is the most important part. It must behave like the reference form:

- At the start, only two fields are visible: WhatsApp number and Instagram username. Both are required. No first name, no last name.
- As soon as the visitor starts typing, the other questions appear below, so the form never looks long at the start.
- One question uses radio buttons, the others are text boxes. One single button at the bottom sends everything.
- No calendar and no booking tool. After the button, the visitor goes to a thank-you page.
- The five questions, in this order and with this exact wording, are listed right below. All are required.
- No email field. If ClickFunnels needs an email to save a contact, tell us before starting.

1. "Présente-toi rapidement : ta situation pro et perso en détail." Text box.
2. "Décris-nous précisément ton activité / idée que tu veux développer (qui sont tes clients, services proposés, ou ton projet en cours ou futur...)" Text box.
3. "Quels sont tes revenus mensuels / chiffre d'affaires actuels ?" Radio buttons: Moins de 2 000 € / 2 000 à 3 500 € / 3 500 à 5 000 € / 5 000 à 10 000 € / 10 000 à 30 000 € / Plus de 30 000 €.
4. "Comment décrirais-tu ta situation financière actuellement ?" Text box.

5. "Explique-nous ton rapport aux réseaux sociaux (ce que tu as déjà fait ou tes idées)" Text box.

## After the button

- Thank-you page, same look, no other button. Title: "Merci beaucoup pour tes réponses". Text: "On te recontacte d'ici 72 heures maximum, principalement sur Instagram (compte professionnel) et/ou sur WhatsApp, pour fixer un appel avec toi." Next line: "Pour ne pas rater notre message, suis le compte de Louis : @itslouismatys", with the @itslouismatys link opening https://www.instagram.com/itslouismatys/. Last line: "Vérifie bien tes spams."
- Every application, and every partial one (WhatsApp and Instagram filled, rest not), must be saved and readable by our setter without a paid extra seat and without manual export. A ClickFunnels contact view or a Google Sheet is fine. Tell us which one you propose.
- Email notification for each complete application to [EMAIL 1] and [EMAIL 2].
